Journal of the House of Commons of IRELAND.

June 16. Die Martii, 1737.

BILL entitled, An Act to explain and amend an Act, entitled, An Act for repairing the Road leading from the Town of Mullingar in the County of Westmeath, thro' the Towns of Rathcondra and Mevone in the said County, and thro' the Town of Ballymahon in the County of Longford to Lanesborough in the said County, and for repairing the Road from the said Town of Lanesborough to the Town of Roscommon in the County of Roscommon, and also for amending the other Act of the Seventh Year of his present Majesty, entitled, An Act for repairing the Road leading from the Town of Kinnegad in the County of Westmeath, to the Town of Ardlone in the said County, was read the first Time, and order'd to be read a second Time To-morrow Morning.

A Bill, entitled, An Act for rendering the Clarity devised by the Will of Hugh Rainey, late of Maghera in the County of Londonderry, Gent. more effectual, and to enable the Devises under the said Will to make Fee-Farm Leases and Leases for Lives, renewable for Ever, was read the first Time, and order'd to be read a second Time To-morrow Morning.

A Bill, entitled, An Act for the Relief of the Creditors of Daniel Reddy, Esq; and Dudley Reddy his Brother, deceased, by Sale of their real and personal Estates for Payment of their Debts, was read the first Time, and order'd to be read a second Time To-morrow Morning.

A Bill, entitled, An Act for the further Improvement and Encouragement of the Fishery of this Kingdom, was read the first Time, and order'd to be read a second Time To-morrow Morning.

A Bill, entitled, An Act for continuing and amending several Laws heretofore made relating to his Majesty's Revenue, and the more effectual preventing the Running of Goods, was read the first Time, and order'd to be read a second Time To-morrow Morning.

Doctor Trotter, according to Order, reported from the Committee of the whole House, to whom an enlarged Bill from the Lords, entitled, An Act for the better Preservation of the Game, was committed, that they had gone thro' the same Paragraph by Paragraph, and agreed thereto without any Amendment.

And Motion being made that the said Bill be now read the third Time, the same was read accordingly.

Resolved, That the Bill do pass.

Ordered, That Doctor Trotter do carry the Bill to the Lords, and acquaint them that this House hath agreed thereto without any Amendment.

Mr. Recorder of Dublin reported from the Committee appointed to prepare an Answer to the Lords' Message, That they had prepar'd an Answer accordingly, which he read in his Place, and afterwards deliver'd in at the Table, where the same was again read and agreed to by the House.

A Bill, entitled, An Act for repairing the Highway from the Town of Tomivarah in the County of Tipperary, to the Town of Silver-mines, as also the Town of Nenagh, and from the said Towns to Nenagh and Silver-mines by Shally-Orchard thro' the Town of Tullio in the said County, and to the City of Limerick, was read the first Time, and order'd to be read a second Time To-morrow Morning.

Mr. Recorder of Dublin reported, That he had (pursuant to the Order of this House) carried to the Lords the Answer of this House to their Lordships' last Message, which Answer is as follows:

THE Commons are not conscious that they have, in their Messages to the Lords, made use of any unprecedented or unparliamentary Expressions, nor had they it ever in their Intention.

The Commons will always endeavour to act with a just Regard to the Constitution of Parliament, and to support, as far as in them lies, the Dignity and

Privileges of both Houses, and conceive that a due Balance can no longer be preserved between the several Parts, than while the Rights of each are equally maintained.

The Commons, as they apprehend, have already fully explained themselves on the Matter of their several Messages, and must still insist on their undoubted Right, that their Managers should go within the Rail when they meet the Lords at Conference.

And that their Lordships were pleas'd to say, they would return an Answer by Messengers of their own.

A Mail arrived Yesterday from Holland, but brought very little News of any Importance.

LETTERS of the 11th Instant O. S. from Vienna say, that Colonel Lentulus who served the last Campaign in Hungary, where he was employ'd in several Expeditions, is just arrived there, to be examined, as 'tis said, on several Articles relating to the Count de Seckendorff, whose Affairs, as they report at present, are not in so advantageous a Situation as was imagin'd; and one may guess so, by a Writ which was some Day ago deliver'd to the Countess his Spouse, by which his Imperial Majesty permits her to retire and to go and live where she will. 'Tis said, this Lady will shortly set out with some of her Domesticks for Saxony; and that towards Easter the Count de Seckendorff will be removed from his House to the Major de Muselberg's Quarters, the said General having already begun to cashier some of his Domesticks.

The Imperial Court has received Advice by Express, that the 6000 Turks that came to besiege the Fort of Ufiz, have been forced to retire after having made two fruitless Attacks upon it, the Garrison, tho' not very numerous, having resisted them manfully.

Their last Letters from Transylvania say, that a Conspiracy has been discovered there, for which several Gentlemen accused, or suspected of it, have been apprehended.

From Constantinople they write, that the Grand Seignior is resolv'd to continue the War for the retaking of Asoph or Oczakow; but that the Count de Bonneval has prevail'd to be employ'd under the Bashaw of Bosnia, rather than in Prince Ragotski's Enterprize against Transylvania.

Letters from Milan, which are of the 8th say, that all Games of Hazard, and particularly that of Placard, are strictly prohibited, by reason of a Loss sustained there by an idle Adventurer, to the Tune of above 60,000 Crowns.

There's nothing more material from Naples, than that the Preparations are continued for the Reception of the future Queen of the two Sicilies; and that in the mean time the King Don Carlos divers himself with Cock fighting.

The Advices from the Hague, which are of Friday last say, they have an Account by the Captain of one of their Ships taken by the Spaniards near Porto Rico, and carried into the Havanna, that the Spaniards there are making great Preparations for some secret Expedition; and he heard, that a Ship belonging to our South Sea Company, which arriv'd the 7th of December last at Buenos Ayres, with 336 Slaves, sold them all off, and was afterwards arrested by Order of the Spanish Government.

Letters from Ispahan, the Capital of Persia, dated the 10th of November last say, that the Governor had made publick Rejoicings all over that City for three Days together, upon Advice by Express from Kouli Kan the Sophi, that his eldest Son, the Prince Irfi Kuli Mirsa, had made himself Master of the principal Places of the Province of Bucharia; that he had also taken Orscheasky, and that having afterwards march'd with his Army towards Balck, he put 3000 Men to the Rout, that offer'd to dispute the Passage of a certain Defile with him, and that then he lay'd Siege to the Town, which in a few Days after surrendered by Composition; and after having likewise reduced the Town of the Kapechaks, he was actually on the March to besiege Candahar. 'Tis added, that 'tis the general Opinion, that as soon as Kouli Kan is peaceable Possessor of the Throne

of Persia, he will renew the War against the Turks.

Letters of the 19th Instant O. S. from Lelpick say, that the Regencies of every Province of the Electorate of Saxony, are preparing a Present to the Princess Royal of Poland, against her approaching Marriage; and that the States of Upper Lusatia design 30,000 Crowns for her, besides a great Quantity of Table Linen, the finest that is made in the Country.

From the London Gazette.

Petersburg, March 4. The Czarina has not appeared in publick for some Days, being a little indisposed with a Pain in her Left Arm, occasioned by her having taken Cold; but as the Pain is almost gone, it is said her Majesty will appear To-morrow. Several Couriers are arriv'd here from Velt Marshal Count Munich, by which this Court is inform'd, that the Tartar Chams of Crimea, Budziack, and Bielgorod, had with them, when they came to the Borders of the Ukraine about 80000 Men; but as they have been beaten by the several different Parties of Russian Troops and Cossacks that were able to overtake them in their Retreat, it is thought, as the Country is covered with Snow, the greatest Part of those Tartars and all their Horses must perish before they can reach their respective Habitations, the Tartars of Crimea having five or six hundred Weffs to march before they can come to the Perecop, and the Tartars of Budziack and Bielgorod much farther. This Rout or Defeat of the Tartars is look'd upon by this Court as an Affair of the greatest Consequence; for they say it will in great Measure extirpate those People, and perhaps oblige the Turks to make up Matters as soon as possible, since they cannot well carry on a War with Russia without the Assistance of such irregular Troops to oppose the Russian Tartars and Cossacks.

Vienna, March 22. N. S. The Poshacks and other Turkish Militia which had besieged Ufiz, have been oblig'd to retire for want of Provisions; tho' not without having burnt 500 Houses in the Town of Ufiz, and in the Villages in the Neighbourhood.

Dresden, March 22. N. S. Lieutenant General Stutterheim is to have the Command of the Saxon Troops in Hungary, and the two Majors General are to be M. Jasmuth and M. Brand. Count Wratislaus gives himself a great deal of Trouble to persuade this Court to recruit those Troops: It would require near 4000 Men to render them as compleat as they were at the Beginning of the last Campaign, and this Court does not appear at all dispos'd to be at the Expence. The Pilladin of Lublin, Count Tarlo, is set out for Luneville: He has a Pretention of 150,000 Crowns on King Stanislaus, which he spent to serve him in Poland; and which the Court of France has promis'd shall be made good to him.

The second Edit. with a Continuation to Christmas 1730. By Mr. ETON

Concerning Gleets and Seminal Weaknesses of all Kinds.

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleet and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infect the whole Nervous System, often bring on Hectick Heats, a Tabes Dorialis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleet, Seminal Effusions, involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Uterus, or Bladder, the Diabetes, or Incontinency of Urine, or Difficulty of holding their Urine, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good, after having for many Years been experience'd never once to fail perfectly curing the most Stubborn Gleet known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, which it almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pulsing Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY, is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, inasmuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigu'd with Gleet or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in a few Days time find it so very effectual, that they will be most agreeably surpris'd at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleet and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in its praise. All who ever took it for any of the above-mention'd Purposes, have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy, one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radcliffe's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with, succeeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary

The most Fam'd and long Experienced Chymical Drops For ASTHMA's and CONSUMPTIONS,

That have been Sold so many Years, and with such uncommon Success and Benefit to the Publick, by Mr. Parry, and his Predecessors, in Boar's-Head-Court, Fleet-street; and, since Mr. Parry's Death, have been and still are sold only by Mr. Read for 3 s. 6 d. a Vial, at his House in White-Fryars. (N. B. You turn in just by the Sun Tavern in Fleet-street, and it's the great Corner House in White-Fryars; JAMES READ, in great Letters, is wrote over the Door.)

They are a most Incomparable and never-failing Medicine for the immediate Relief and perfect Cure of the most confirmed ASTHMA of the longest standing: And of all Sorts of CONSUMPTIONS, even when so far advanced, as not to be cured by any other Medicine in the World.

FOR their Virtues vastly exceed any Thing that ever was published, or even known in the whole World, in the Cure of the worst Asthma's and Consumptions of all Sorts, Coughs, Colds, Catarrhs, &c.

They instantly relieve the Patient in the most suffocating Fit of an Asthma, and make a perfect Cure in a very short Time; for they gently open the Breast, and immediately give Liberty of Breathing, without danger of taking Cold; they admirably allay the Tickling, which provokes frequent Coughing, and take off the uneasy Sensation of acrimonious Humours, cleanse the small Glands, relax the Fibres, and thereby enlarge the Capacities of the Vessels; thus they regularly and quickly Cure the most obstinate Asthma of the longest standing.

They speedily and to Admiration cure all Sorts of Consumptions, Ulcers of the Lungs, &c. removing all Obstructions of the Breast, and Lungs, Hoarseness, Wheezing, Soreness, Shortness of Breath, and all the usual Symptoms which attend the Beginnings of a Consumption; and, if taken in time, will infallibly prevent one when seated. They are also exceeding nutritive and strengthening to Persons of weakly Constitutions, and have no other sensible Operation than as mentioned above.

And by Parity of Reasoning this most excellent Medicine in the (and well known to be) the most sovereign Remedy in the World for those troublesome spending Coughs, which many are severely troubled with Night and Morning, and also for the Chin-Cough, and Hooping-Cough in Children, having cured Thousands; is so agreeable, and so few Drops to a Dose, that Children take them with Pleasure, and without any Confinement.

In short, these unparallel'd Chymical Drops are the most infallible Remedy that ever was known (and therefore despise the faint Efforts of all Counterfeits or Imitators) for the Ailments above-mentioned, and allowed to be so by the most Judicious amongst the Learned in Physick; and confirmed by the largest Experience in private Practice, and are made Publick to Common Good.
